Board of Selectmen
Southborough, Mass.

Gentlemen:

The order of location passed by your Board on the 27th day of May, 1903, authorizing this Company to establish conduits for the maintenance of telephone wires under the surface of the Worcester Turnpike, contains the customary provision that the Company shall reserve space on its poles for fire alarm and police signal wires belonging to the town.

We understand from our Mr. Hall, that the town at present does not own any fire alarm or police signal wires, and therefore, at the present time at least, will not require the use of any of the company's poles.

In view of the fact that under present conditions the town does not require any space upon the company's poles, we herewith confirm Mr. Hall's agreement with you; to wit: that so long as the town shall not avail itself of its privelege to use the company's poles, as stated, we will furnish to the town in lieu thereof, frank books calling for Fifty dollars worth of toll and pay station telephone service, to be used by the officers of the town for town business only. These frank books will be honored at any station in the town of Southborough and will also be honored when attached to the bills for service on any private telephone of any town official for calls made upon such private telephone for official business.

Yours very truly,

Telegraph Company of Massachusetts

Mr. Taft sworn April 4, 1908

Boston, Feb. 29, 1908

Chairman of the Board of Selectmen
Town of Southboro, Mass.

Dear Sir:

Our local superintendant, Mr. Godfrey has requested us to submit to you in writing a proposal to light the villages of Southville and Cordaville in your Town, and we beg to say that if the Town of Southboro will renew its present contract, maturing about April 1, 1909, for a period of at least five years from its expiration on the same terms and conditions, we will extend our lines to the villages mentioned, supplying you with not less than 40 incandescent street lights at the same price you are now paying for the street lights in the Village of Fayville: namely, $18 per annum.

In addition to this, we will install 40 c. p. lights in this new construction, and in consideration of the renewal of your present contract as suggested above, we will replace, during the present calendar year, all of your present 25 c.p. lamps with 40 c. p. so that your entire service will be of 40 c. p. lamps at the same price you are now paying for 25 c. p. lamps.

We reserve, however, the right to make this construction at such time as we may find it most convenient between now and October 1, next. The chances are, however, that we should undoubtedly have the new construction in operation by July 1st, next.

Very truly yours,

To the Town Clerk of Southborough

Respectfully represents the undersigned voters of the Town of Southborough that they have reason to believe and do believe that the records or copies of records made by the election officers of said Town at the state election, November 3, 1908 are erroneous in that certain votes cast for John F. Counted for George F. Birch also candidate for Senator, and they further believe that a recount of the votes cast for Senator in said Town will so affect the result that said John F. Meaney instead of George F. Birch will be found to have been elected Senator in said district, and said petitioners hereby ask that the votes cast for senator be recounted.
